**MANAGEMENT DISCUSSION AND ANALYSIS: -
ANNEXURE-A**

Pursuant to clause 49 VIII (D) of the Listing Agreement, your Directors wish to report as follows:-

(i) Industry Structure & Development :

The Ayurvedic medicines industry has remained a highly fragmented industry with many cottage industry players. A large part of the medicine manufacture process has been passed on through traditions. The propagation of the industry has been without any significant governmental support for a long time.

The economic policies of the Government and political situation in the country are quite favorable to the present business of your Company. The launch of the National Ayush Mission in the current year can be expected to boost awareness and usage of Ayurvedic medicines in the country.

As one of the first companies to have instituted scientific methods to establish large scale manufacturing practices, Sandu Pharmaceuticals is well poised to take advantage of these developments.

There is also a gradual shift towards Ayurveda and more and more people are opting for Ayurvedic medicines. This is expected to benefit your Company in the long run.

(ii) Opportunities and Threats :

There are opportunities in the Ayurvedic Industry to develop new products through proper research and development and there is no doubt that the industry will thrive. At Sandu Pharmaceuticals, we have been at the forefront of establishing scientific product development, resulting in superior product quality and efficacy.

Your Company also has good opportunities in the export markets. Your Company has been making concerted efforts to reach out to the export markets through active participation in Expos. The results of these efforts are now beginning to bear fruit, and we expect more success in the coming years.

The industry continues to be plagued by low quality, unorganised players who continue to sell their medicines without quality standards. The lack of minimum quality standards has affected the perception of Ayurveda as a viable healthcare product.

Another challenge is the continuous increase in the raw material input costs which increases the pressure on the profitability of your Company. As a result, we are forced to increase price of our products although the price increases are not as high as the cost increases, resulting in greater pressures for process efficiency on your Company.

(iii) Segment wise performance :

Segment wise analysis of performance is not

applicable to your Company under Accounting Standards 17 because there is only one segment i.e. Pharmaceutical.

(iv) Outlook :

The outlook for the industry and consequently for your Company during the current financial year is reasonably good subject however to the effects of government policies, inflationary pressure and general global slowdown which is bound to affect your company.

(v) Risk and concerns :

Domestic and international market conditions would be the only risk which may be faced by your Company apart from input costs which are causing adverse impact on your Company's profitability. Other risks and concerns related to finance, production, stocks, insurance etc. are being managed adequately and efficiently by your Company.

(vi) Internal Control Systems and their adequacy :

Your Company has put effective internal control systems into operation and is having adequate Internal Audit mechanism to monitor and review the same under the overall control and supervision of the Internal Auditor and the Audit Committee of the Independent Directors. Continuous improvements as suggested by our Internal Auditors are being implemented.

(vii) Discussion of Financial performance with respect to operational Performance :

The financial performance with respect to the operational performance during the year under review was satisfactory. Your Company was successful in maintaining the profit level only because of the higher volumes and higher sales realization in spite of increased raw material prices.

(viii) Material Development in Human Resource / Industrial Relations :

Your Company is constantly endeavoring to introduce Human Resource Development activities for overall improvement of its team and induction of professional manpower. Your Company has good industrial relations. Your Company has continued to maintain good relationship with all employees at all the levels which also resulted to achieve higher production and sales.

(ix) Material Financial and Commercial Transaction :

There are no material significant financial and commercial transactions with related parties viz. Promoters, Directors or the Management, their companies / firms or relatives conflicting with the interest of your Company. The promoters and the Directors are not dealing in the shares of your Company.

2.3	<p>Inventories</p>
	<p>The Stock of packing material, raw material valued at cost and finished goods have been valued at cost or net realisable value whichever is lower. The method adopted for valuation of finished goods & work-in-process is retail method of valuation envisaged in AS 2 issued by the ICAI. Under this method cost of the inventory is determined by reducing from the sales value of the inventory the appropriate percentage of gross margin. The Company has valued finished goods at percentage of sale price. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, transit insurance and receiving charges.</p>
2.4	<p>Cash and cash equivalents (for purposes of Cash Flow Statement)</p>
	<p>Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.</p>
2.5	<p>Cash flow statement</p>
	<p>Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.</p>

Note	Particulars
2.6	<p>Depreciation and amortisation</p> <p>Depreciation on fixed assets has been provided on the Straight Line method as per the useful Life 'prescribed in Schedule II to the Companies Act, 2013. Assets Costing ₹ 5000/- or less charged off as Expense in the year of purchase During the year, pursuant to the notification of Schedule II to the Companies Act, 2013 with effect from April 1, 2014, the Company revised the estimated useful life of some of its assets to align with the useful life with those specified in Schedule II.</p> <p>Pursuant to the transition provisions prescribed in Schedule II to the Companies Act, 2013, the Company has fully depreciated the carrying value of assets, net of residual value, where the remaining useful life of the asset was determined to be nil as on April 1, 2014, and has adjusted an amount of 47.79 Lakhs in the Notes 4 for the Reserves & surplus</p>
2.7	<p>Revenue recognition</p> <p>Sale of goods</p> <p>Sales are recognised, net of returns, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Sales include excise duty but exclude sales tax and value added tax. Sale Discount has been disclosed separately by way of debit to Statement of Profit & Loss.</p>
2.8	<p>Other income</p> <p>Interest income is accounted on accrual basis. Dividend income is accounted for when the right to receive it is established.</p>
2.9	<p>Tangible and Intangible fixed assets</p> <p>"Fixed assets, except Leasehold Land are carried at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Machinery spares which can be used only in connection with an item of fixed asset and whose use is expected to be irregular are capitalised and depreciated over the useful life of the principal item of the relevant assets. Subsequent expenditure relating to fixed assets is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.</p> <p>Impairment</p> <p>Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (tangible and intangible) may be impaired. For the purpose of assessing impairment the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset / cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an assets' or cash generating units' net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.</p>
2.10	<p>Investments</p> <p>Non Current investments, are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.</p>

Note	Particulars
2.11	<p>Employee benefits</p> <p>Employee benefits include provident fund, superannuation fund, gratuity fund, compensated absences, long service awards.</p> <p>Defined contribution plans</p> <p>The Company's contribution to provident fund and superannuation fund are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made.</p> <p>Defined benefit plans</p> <p>For defined benefit plans in the form of gratuity fund , the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.</p> <p>Short-term employee benefits</p> <p>The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under :</p> <p>(a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and</p> <p>(b) in case of non-accumulating compensated absences, when the absences occur.</p> <p>Long-term employee benefits</p> <p>Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date less the fair value of the plan assets out of which the obligations are expected to be settled.</p>
2.12	<p>Segment reporting</p> <p>The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The Company is presently operating in single segment.</p>
2.13	<p>As regards to compliance of provision relating to the dues to the Small Scale Industries in terms to the companies(Amendment) Act, 1998, the Company has not received from any parties claim to be Small Scale Industries. Hence , the said information is not given.</p>
2.14	<p>Earnings per share</p> <p>Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend by the weighted average number of equity shares outstanding during the year.</p>

Note	Particulars
2.15	<p>Taxes on income</p> <p>Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.</p> <p>Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.</p> <p>Current and deferred tax relating to items directly recognised in equity are recognised in equity and not in the Statement of Profit and Loss.</p>
2.16	<p>Provisions and contingencies</p> <p>A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes and not provided in the Balance Sheet.</p>
