India pushes Nepal for completion of projects

PTI
Kathmandu

Ahead of Union Minister for Power Manohar Lal Khattar's visit to Nepal, India on Friday pushed for speedy completion of projects funded by New Delhi in the Himalayan nation.

During a meeting between Indian envoy to Nepal Naveen Srivastava and Nepal's Minister for Energy, Water Resources and Irrigation Deepak Khadka at the latter's office, they also discussed about early completion of the detailed project report (DPR) of the Pancheshwar Multipurpose Project, sources in the ministry said.

> Srivastava assured India's continuous support and cooperation to Nepal in connection with various initiatives in power trade, development of transmission lines, and production of green hydrogen.

The two also discussed Khattar's forthcoming visit to Nepal.

Ambassador Srivastava urged Minister Khadka to facilitate the speedy progress of the projects run under Indian investment as he discussed various aspects of energy cooperation between Nepal and India, the sources added.

Khadka extended thanks to Ambassador Srivastava for India's cooperation in power trade, construction of additional transmission lines, and progress made by hydro-power projects having Indian investment.

Srivastava assured India's continuous support and cooperation to Nepal in connection with various initiatives in power trade, development of transmission lines, and production of green hydrogen.

The meeting between Srivastava and Khadka came days after he (the Nepali minister) met India's Union Minister for Petroleum and Natural Gas Hardeep Singh Puri and Minister of Jal Shakti C R Patil during his visit to New Delhi.

11 killed in Pak

At least 11 people were killed and seven others injured when a roadside bomb struck a vehicle carrying coal miners in Pakistan's restive Balochistan province on Friday, officials said. The blast hit a mini truck in the Shahrag area of Harnai.

Russian drone attack damages Ukraine's Chernobyl reactor

AP
Kyiv

A Russian drone with a high-explosive warhead hit the protective containment shell of the Chernobyl Nuclear Power Plant in the Kyiv region during the night, Ukrainian President Volodymyr Zelenskyy said Friday.

Radiation levels have not increased, Zelenskyy and the UN atomic agency said.

Russian officials made no immediate comment, and it was not possible to independently confirm Ukraine's claim of Russian responsibility. The UN atomic agency did not attribute blame, saying only its team stationed at the site heard an explosion and were informed that a drone had struck the shell.

Zelenskyy said that the strike damaged the structure and started a fire, which has been put out.

Radiation levels have not increased, said the UN atomic agency.

The strike came two days after US President Donald Trump said he would meet with Russian President Vladimir Putin to discuss ending the war, in a move that seemed to identify Putin as the only player that matters and looked set to sideline Zelenskyy, as well as European governments, in any peace talks.

Kremlin spokesman Dmitry Peskov on Friday denied Ukrainian claims that Russia struck the outer protective shell of the Chernobyl nuclear plant with a drone.

Ukraine intends to provide detailed information to US officials about the Chernobyl strike during the Munich Security Conference starting Friday, the head of Ukraine's Presidential Office, Andrii Yermak, wrote on his Telegram channel.

The UN International Atomic Energy Agency said the Chernobyl strike occurred at 1.50 am local time (2350 GMT). It said there was "no indication of a breach in the ... inner containment" shell.

The outer shell that was hit is a protective cover built in 2016 over a heavy concrete containment structure. The inner layer was placed on the plant's fourth reactor soon after the 1986 disaster, which was one of the worst accidents in nuclear history. The containment shells seek to prevent radiation leaks.

The three-year Russia-Ukraine war has brought repeated warnings of dangers to Ukraine's four nuclear plants, especially at the Russian-occupied Zaporizhzhia nuclear power plant in southern Ukraine.

Suleiman's remarks...

➤Continued from P 1

"This is being done to ascertain whether any lapses with regard to the set protocol had been committed," the statement said.

"Investigations by Goa police have revealed that in nearly all the cases (against him), the accused has defrauded innocent individuals and investors using false promises, forged documents and intimidation," police said.

Apart from the case of escape from police custody, there are six different cases against Khan which are pertaining to forgery including one case of murder.

Police said that in connection with the escape from police custody case, the chargesheet was filed on February 12. The mobile phones of the accused have been seized and sent to the Goa Forensic Science Laboratory for examination. A forensic analysis has been asked of all the videos either made, received or sent from his mobile phone, police said.

Khan had escaped from crime branch police custody with the help of former IRBn police constable Amit Naik on December 13. Khan was subsequently nabbed by the police in Kerala and brought to Goa on December 23. The accused is currently in judicial custody.

Court discharges ex-CM Kamat...

➤Continued from P 1

However, as the prosecution failed to prove the charge, court has discharged Kamat from the case.

Kamat still faces another chargesheet in a similar matter, which is currently under trial.

The cases were based on the Justice M B Shah Commission report, which had alleged a Rs 35,000 crore illegal mining scam in Goa during 2007-2012, naming Kamat as the main accused.

The Shah Commission was set up by the Congress-led UPA government following allegations of illegal mining in Goa.

SC relief to Goa govt on industry...

➤Continued from P 1

Specifically, if the rebates or incentives place an undue burden on the public exchequer or state finances, the doctrine may not be applicable, the court said.

Affirming the Bombay High Court's Goa Bench decision, the court observed, "We have no doubt in our minds that the High Court was right in holding that the appellant companies before it are not entitled to the rebate and the impugned demand notices do not suffer from any vice including that of illegality."

The Supreme Court heard the case where the appellants were aggrieved by the demand notice sent by the Goa government to recover previously offered electricity tariff rebates under its 1991 notification, which provided a 25% rebate on electricity tariffs for industrial units.

The dispute arose when the Goa government rescinded its 1991 notification. Although the rebate scheme was withdrawn on March 31, 1995, the appellants –industrial units that applied for power before this date – argued that they were still entitled to the benefit despite receiving power supply after the rescission.
